| USD \$223 | EUR 193

Item Reference: SA1187463

Date of manufacture: 1910

Description

Antique silver Alliance Lever pocket watch, 1911. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has three little "dings". The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for London (import mark), 1911 with a sponsor's mark for George Stockwell. From 1 June 1907, Stockwells acted as assay agents, facilitating the import into Britain of foreign gold and silver items which had to be assayed and hallmarked in a UK assay office before being released for retail. The front and sides of the case are in good condition, some unevenness to the hinged back. The acrylic lens is in lovely condition (some white natural light reflection showing in the two front photos). The signed dial is in lovely condition with original blued steel hands, a subsidiary seconds dial and outer minute track. The watch comes in a new presentation box.
