Description

A fine and impressive antique 1.00 carat diamond, 18 carat yellow gold and platinum set twist ring; part of our diamond jewellery collection. This fine and impressive antique twist ring has been crafted in 18ct yellow gold with a platinum setting. The platinum setting displays an impressive 0.52ct and 0.48ct Old European cut diamond, individually claw-set in a diagonal twist formation. The curved ring shoulders blend seamlessly with the plain yellow gold ring shank. This Old European cut diamond twist ring is hallmarked to the interior shank with the maker's mark and 18ct gold mark (18CT); the piece has been independently tested using state of the art technology (Niton XL2 Analyzer) and verified as 18 carat gold and platinum. This impressive antique ring is supplied with two IDGL diamond grading report certificates. The paired diamonds symbolise two lives intertwined, lending this ring particular resonance for engagements, anniversaries or romantic milestones. Its elegant twist setting and antique craftsmanship also make it a refined gift to mark achievements or to preserve as a quietly meaningful heirloom. Images do not always reflect the true colour and brillianc...
