Description

This fine quality roll top desk has just had a week in our workshops where everything as been attended to. From a loose joint on a dovetail to a full re polish and the very important re backing of the tambour (by far and away the most important and time consuming). Even a trip to the locksmith's to service the locks and get keys. All these jobs and more are why we only consider top quality desks in the first place. All of our roll tops are way above average quality and would have been in the factory bosses office, the solicitor (not the clerk), the doctor, etc. This is why they can appear expensive. All ready for the next 100 years. It breaks into 3 main pieces and will go through almost any doorway . Comes with free Uk mainland and setting up as part of the service.
