Description

Antique silver Waltham full hunter pocket watch. The watch has a 15-jewel stem-winding movement, grade 620, which is working nicely. The movement is fully signed and it has the serial number 22,781,702 which dates it back to around 1919. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and has hallmarks inside the three covers for Birmingham 1923, with a case maker's mark for Aaron Dennison, watch case manufacturer and supplier to Waltham UK. The case is in good condition. The winding crown pushes in to release the front cover. Inside, there is an acrylic lens which is in good condition (some natural light reflection showing in the main photo). The signed dial is in lovely condition with original blued steel hands, a subsidiary seconds dial and outer minute track. The watch comes in a new presentation box.
