Dimensions

Height = 31.1 cm (12.2")

Width = 14 cm (5.5")

Depth = 14 cm (5.5")

Description

An initialled example of a lantern clock by this highly collected maker. An absolutely typical style of lantern clock made by this family of Clockmakers. The 30 hour duration movement converted from Verge to Anchor Recoil escapement and long pendulum. Countwheel striking the hours on a large top-mounted cast bell that is hung from a sprung, attractive, crossed bell strap with an ornate centre and set within the 4 top finials. The 6 1/8" diameter engraved chapter ring has an outer ring, Roman hour numerals, an inner, divided quarter track and Fleur-de-Lys half hour marks. This is riveted onto the dial plate at XII, III, VI and IX. The dial plate has tulip engraved corners and the centre is heavily and boldly engraved with tulip design with large open tulip within a circular rosette. The one-piece cut and tailed, blackened steel hand is of a pleasing and practical style. As usual, the trains are set in front and behind one another within 3 upright supporting plates with the front and back ones being of cruciform style. It retains its original sprockets but these have been modified for chain. The 4 corner frame pillars terminate with ball feet and urn finials. The top pl...
