

SA1188400

Antique gun metal pocket watch and chain

Price

Sold**Item Reference: SA1188400****Date of manufacture: 1920**

Description

Antique gun metal pocket watch and chain. The watch has a Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gun metal with gold plated highlights and it is in lovely condition, just surface marking to the back which is usual for gun metal cases. The glass lens is in good condition. The dial has its original blued steel hands, a subsidiary seconds dial and outer minute track. There are a couple of faint hairlines at the bottom of the dial but they are very difficult to see with the naked eye. The watch comes with a single brass chain, 27cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
