Description

This is an antique Stafford County Map. An English, framed atlas engraving of Staffordshire, dating to the 17th century and later, circa 1676. Superb cartography reproduction of Staffordshire - perfect for display. Displaying a desirable aged patina and in good original order. Fascinating cartography, appealingly set within a later glazed frame. Originally compiled by John Speed (1552 - 1629) in the early 17th century. Hand coloured palette accentuates the map with crests and borders. Engraved here by R. White for The Theatre of the Empire of Great Britaine, a prominent 17th century publication. Town plans for Stafford and Lichfield provide great period detail. Atlas text to the reverse, visible under close inspection of the map. Dressed to the rear with hanging wire for ease of mounting. This is a quality antique Stafford County Map, with fine cartographic interest and a quality engraving of Speed's work. Delivered ready to display.
