Description

Just in from a local house. A windout extending table that has been well looked after and is in really good condition, with hardly any sign of useage over many years. It is a great size which is quite rare. Most of these tables are 107 or 120 cms wide, this one is 100wide, a size we have often been asked for but have been unable to obtain through scarcity. It is an 8 seater with ease as the pictures show, with the ability to take out two leaves either together or one only. A lot of flexibility. The table height is also a little taller than many at 30 inches, 76 cms most being that inch or so lower. This 19th century table has good colour and a lovely shape to the turned leg, the top has the ever popular rounded corner too..... We have a number of sets of chairs available to go with this table if required. The set of eight balloon backs currently around it are available and very keenly priced. A number of sets of six also available.
