Height = 78 cm (30.7")

Width = 171 cm (67.3")

Depth = 44 cm (17.3")

Description

This attractive early 19th-century oak pot board dresser base is a fine example of robust English country furniture, combining practicality with pleasing proportions. Constructed from solid oak, the dresser base displays a rich, warm colour and a well-developed patina consistent with its age. The front is fitted with three drawers, each retaining original brass handles, offering useful storage while maintaining the piece's traditional character. Below, the dresser features a pot board base formed from well-figured elm planks, chosen historically for their strength and distinctive grain. The contrast between the oak carcass and the elm pot board adds visual interest and authenticity. Supported on turned front legs with plain rear supports, the dresser base has a balanced and elegant stance. Its generous width makes it ideal for use as a kitchen dresser base, sideboard, or console, while the open pot board provides additional display or storage space. This is a versatile and honest piece of early 19th-century furniture, equally suited to period interiors or as a characterful statement piece in a contemporary setting. Key Features • Early 19th-century dresser base • Construc...
