Description

Superb condition, professionally serviced with a 12 month warranty. This is an outstanding example of a vintage mens chronograph made by the premium Swiss maker Omega. This is the rare 1967 Seamaster three register chronograph with the legendary calibre 321 movement, the same movement that was used in the Gemini and Apollo Astronaut watches. The movement is considered to be the best chronograph movement ever produced. The Model Reference is 145.005. The silver dial is completely original and untouched it has had no restoration whatsoever its one of the best original examples we have seen. The case and original beads of rice bracelet have been ultrasonically cleaned. The Omega symbol is on the crown and it is fully marked Omega on the dial, movement and case as you would expect. The movement has been professionally serviced and a new glass has been fitted all of the functions work perfectly and it keeps excellent time. It comes with its original box and a choice of Leather or webbing straps so that you can change the look if you wish. The watch case measures 35mm in diameter not including the crown or the pusher buttons. This is one of the most desireable vintage chr...
