## Description

A stunning, fine and impressive antique hardstone and 18 carat yellow gold intaglio ring; part of our Georgian jewellery collection. This exceptional, fine and impressive ring has been crafted in 18ct yellow gold. The substantial antique gold ring setting displays a stunning oval hardstone, ornamented with a carved intaglio. The intaglio bears a figural profile, featuring wavy, tied back hair. The surrounding setting is plain and unembellished, melding with the incurved shaped ring shoulders and blending seamlessly with the ring shank. This antique gent's ring is hallmarked to the interior of the shank with the maker's mark (T.H), the gold guarantee mark (crown), the 18ct gold mark (18), the Birmingham Assay Office mark (anchor) and the date letter for 1811 (n). This Georgian intaglio ring in yellow gold combines finely carved artistry with historical depth, making it a meaningful choice for birthdays or anniversaries. Its warmth and craftsmanship appeal to those who value heritage and sentiment. Images do not always reflect the true colour and brilliance of gemstones and diamonds. The video however provides a truer representation of the actual colour and showcases...
