Description

A stunning antique Victorian carved walnut console / side table. This was made in England, it dates from around the 1860-1880 period. It is of exceptional quality and is a very useful size. There is wonderful, detailed carving around all the edges, the top is beautifully shaped and has a slightly raised edge. The single drawer is pulled out with a leather handle that is fixed inside the drawer. The back of this is also nicely finished. We have had this revived and re-polished, the condition is excellent for its age, with a lovely patina. The solid walnut top has a couple of very slight splits to the construction where the original joints on the edges, seen in the images. This is part and parcel of what sometimes happens with antique solid wood furniture, it doesn't affect the look much and certainly doesn't affect the use. Width – 31 inches , 78 cm Depth – 17 inches , 43 cm Height – 30.5 inches , 77 cm
