Description

This is a rare folk art solid oak Spanish cupboard from the Pyrenees mountains. This style of furniture is fabulous due to its bold primitive design, made in remote areas in the Pyrenees. This example is totally original, very heavy and has a stunning patina due to its dry un touched condition. The doors even have slight blackening from spending time near an open fire. The doors have lovely carved details and the twist stop is a great design. Inside there is a shelved interior and the top you can see open shelves with interesting carved shapes around the apertures.
