Description

1930s Record Trenton pocket watch and chain. The watch has a good quality Swiss 15 jewel (2 adjustments) stem-winding movement which is working nicely. The movement has been identified as a Record Trenton. The name Trenton was one of a number of brand names used by the Record Watch Company. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in good condition with just one small "ding" to the back, and a small mark to the bezel. The glass lens is in good condition. The dial is in lovely condition with blued steel hands. The watch comes with a single chain, 39cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
