1930s Limit railway pocket watch

Price

Sold**Item Reference: SA1190506****Date of manufacture: 1930**

Description

1930s Limit railway pocket watch. The watch has a Swiss 15-jewel stem-winding movement, signed Limit No 2, which is working nicely. The company Limit was established by Hirst Brothers in Oldham, UK, in 1912, offering watches with Thommen movements such as the one we have here. The watch measures 54mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition, just a minor indentation to the screw-on back. The back of the watch has the initials LMS for London, Midland & Scottish Railway, a British railway company formed on 1 January 1923 under the Railways Act 1921. The acrylic lens is in lovely condition. The dial looks lovely to the naked eye... if viewed through a jeweller's loupe, there is a faint short hairline by number 10. Original blued steel hands. The watch comes in a new presentation box.
