Description

A George V era circular silver photo frame with clear hallmarks for London 1918 and makers mark for Goldsmiths & Silversmiths Co Ltd. This good quality silver frame has engine turned decoration around the front of the frame in a linear pattern with wavy edges, interspersed with small dots, with a plain silver inner rim. The plain silver sides wrap around the edges. The back reveals a silver retainer, and hinged keeper, also hallmarked. The back is the original linen easel, and the silk front lining is engraved in gold with the Goldsmiths & Silversmiths name, address, royal insignia and inscription By Appointment to HM the King. It is unusual to find such original features. The condition of the silver is excellent though the easel back is in keeping with the age.
