Description

1930s Windsor Exhibition pocket watch. The watch has a Swiss stem-winding movement which goes for around five days. The barrel which sits over the movement is beautifully detailed with information about the movement. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel and it is nicely decorated. The inside of the hinged case back is signed Jagot W Co, Wear Ever Quality, Swiss. The Jagot Watch Company was owned by Joseph A Gottlieb, a New York based importer, with the name Jagot being formed from his initials. The acrylic lens is in good condition (some natural light reflection showing in the photos). The dial is signed Windsor Exhibition, a brand name designed to appeal to potential UK customers. The dial is in lovely condition with original blued steel hands, gilded detail and exposed balance, which shows the movement is also signed with the name Windsor. The watch comes in a new presentation box.
