Description

Antique Waltham Bond Street pocket watch, 1900. The watch has a seven jewel stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 7,268,617 which dates it back to around 1900. The movement is protected by an inner cover. The watch measures 49mm diameter excluding the winding stem and the loop. The gold filled case was made by Dennison, an English case manufacturer and supplier to Waltham UK. The case has light marking, and a hint of unevenness to the back, nothing too serious. The glass lens is in good condition. The signed dial is in good condition. The watch comes in a new presentation box.
