Description

Georgian Chest-on-Chest – Sympathetically Painted with Architectural Grandeur. An imposing Georgian chest-on-chest, distinguished by its elegant proportions and superb architectural detailing. Sympathetically painted in soft, original-inspired colourways, the light cream finish is gently distressed to evoke the quiet dignity of age while preserving the integrity of its classical form. The upper section features six drawers, including a pair of smaller top drawers, framed by fluted corner columns and crowned with refined moulding. Below, four full-width drawers offer generous storage, each fronted with decorative paneling and adorned with ornate brass handles and key escutcheons. Bracket feet and balanced symmetry lend the piece a stately presence, making it ideal for both period interiors and characterful contemporary schemes. A fine example of Georgian craftsmanship, reimagined with sensitivity and style.
