Description

Attractive Early 20th Century Mahogany Small Longcase Clock only 77in or 195.5cm High in the Elegant 18th Century Style. It comes with one of my most favourite 8 Day German Movements - The Top Quality Peerless Quarter Chiming Musical Movement with the Equally Good, by Depth Of Note & Mellowness, Embee Gongs. During this Era, the movements were Precision Made But Still Used Sturdy Thick Brass. These Wear Well & Can be Re-bushed or Restored if needed (unlike thin brass mechanical clocks). It Also Strikes the Number of Hours on the O'clock. Please Note that This Movement Also Benefits From Strike/Silent & Chime/Silent Levers should you need Silence. Furthermore, you have the Choice of 3 Tunes - Westminster, St Michael or Whittington. The Peerless Movement is of Excellent Design and Build Quality. In particular the Special Vernier Adjusters to Assist with Achieving a Good Beat (tick tock) and Notes for the Hammers. For Your Peace of Mind, The Movement Has Been Checked, Serviced & Tested to Be In Good Full Working Order. Viewing Always Welcome. Should You Need Delivery & In Particular Set Up Robert will Personally Do This. Naturally Travel Cost May be Incurred (usual...)
