Description

We have been fortunate to get hold of some truly stunning 19th century Italian frames that we have added nice quality mirror plate too. These make incredible features on any wall in a great number of interiors. The design is arguably quite contemporary which is why I love this particular design of frame. The moulding is incredibly fine and when I spoke to my restorer about these he informed me just how hard it is to make this moulding so it really is a testament to the crafts people of the time that created these. These are a striking pair of thick moulded Italian mirrors. The quality of the frames is superb and the patina to the finish makes these even better. Hugely decorative and rare to get a large pair. 88cm By 123cm Can be hung either portrait or landscape.
