Description

This is an unrestored and almost unworn example of the solid 9ct gold Omega 562 Automatic from 1964. The only work we have carried out is to service the movement and give the case a light polish with a soft cloth. The solid 9ct gold case is 33.5mm in diameter excluding the original crown, a full size gents. The case edges are sharp and crisp the watch looks like it was kept hidden away in a drawer and rarely worn. The movement is the Omega 562, Omegas greatest automatic winding movement. It has been freshly serviced and is currently running at plus 5 seconds per day, not bad for a 60 year old watch. The white silver dial is totally original it has had no restoration, the batons are solid gold with sharp facets that catch the light. The hands are matching gold. The gold hallmarks indicate that this watch was made in 1964. A nice original example and it comes with its original Omega buckle. We can fit almost any colour or style of strap, we keep most things in stock. We offer a highly personalised and bespoke service. If you would like to buy or reserve this watch please telephone us on 01726 813155 email us foweyshop@gmail.com Mobile text 07878258979 ...
