Description

Stunning Large Antique Bronze Father Time Clock With French Movement Working. This absolutely stunning clock has a solid bronze figural case cast in bronze. The case is cast in beautiful detail and depicts father time. It's a wonderful bronze sculpture in its own right but made even better by the fantastic feature of having a working clock to the bottom right of the sculpture. The dial of the clock is then set out in black Roman numerals with a thin ring to the outside marking the minutes. It is then fitted with two beautifully shaped hands as well as a brass bezel that is shaped to fit the round bronze housing. The movement is then wound and adjusted from the back. It is a fantastic french movement that is ticking away perfectly. The clock measures approximately: - 18.25" / 46.5cm Tall. - 10" / 25.5cm Wide. - 5.5" / 14cm Deep:
