Antique Omega 8-day goliath pocket watch, super condition

Price

GBP 385

| USD \$520 | EUR 450

Item Reference: SA1194002

Date of manufacture: 1900

Description

Antique Omega 8-day goliath pocket watch, super condition. The watch has a good quality stem-winding movement which is working nicely... over a six day period, it lost around three minutes per day. The movement has been identified as by Omega. The movement is protected by an inner hinged cover which has some light surface scratching. The watch measures 76mm diameter excluding the winding stem and the loop. The case is nickel and it is in lovely condition, a few small minor marks to the back but nothing too detrimental at all. The glass lens is in super condition, as is the dial with original pin-set blued steel hands, a subsidiary seconds dial and outer minute track. The watch comes in a new presentation box.
