Date of manufacture: 17th Century

Dimensions

Height = 23.8 cm (9.4")

Width = 12.5 cm (4.9")

Depth = 11 cm (4.3")

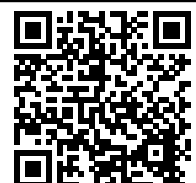

Description

A fine late 17th- early 18th century tulip heemskerk candlestick originating from Holland. The candlestick has a tulip shaped socket, with a inverted acorn knop stem, a slight concaved drip dish, and a heavy stepped base. The base has an old lead repair to it, where perhaps the rivet has come loose. There is some slight movement between the sections, but overall the candlestick is in good condition.
