

SA1194681

Gents Seiko Sportsmatic wrist watch, 1967

Price

Sold**Item Reference: SA1194681****Date of manufacture: 1960**

Description

Gents Seiko Sportsmatic wrist watch, 1967. The watch has a 17-jewel automatic movement, calibre 7625D, which is working nicely. The watch measures 38mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition with just light marking, all very acceptable. The case back has the model number 7625-8230, and also the date codes for 1967. The lens is in lovely condition (some natural light reflection showing in the photos). The signed dial is in its original charcoal finish with cross hair detail, original hands, centre seconds hand and date display. This is an early form of quickset date where the hands are repeatedly moved backwards and forwards between midnight and 9pm until the desired date is reached. A new leather strap has been fitted. The watch comes in a new presentation box.
