Description

This is a remarkable Museum quality unrestored and almost unworn example of the Legendary manual winding Omega 268 from 1959 complete with its original and almost unworn Omega strap with solid gold buckle. The solid 18ct gold Dennison cased versions of this watch are extremely rare, very few were ever made and to find a museum quality example is unheard of. The only work we have carried out is to service the movement and give the case a light polish with a soft cloth. The heavy 18ct gold case is 34.5mm in diameter excluding the original crown, a full size gents. It is perfect with no signs of wear whatsoever. The case edges are sharp and crisp the watch looks like it was kept hidden away in a drawer and never worn. The movement is the legendary Omega calibre 268, Omegas greatest manual winding movement. It has been freshly serviced and is currently running at plus 5 seconds per day, not bad for a 65 year old watch. The dial is totally original and perfect it has had no restoration whatsoever. The original leaf hands are also perfect. Its the most original and perfect unrestored and complete example you will ever see. It comes with its original solid 9ct gold Om...
