Description

As useful as beautiful, the handle of this magnifying glass is made from solid or sterling silver with a decorative panel of glossy antique tortoise shell to the front. The handle is a particularly attractive shape with cast decoration to the tip of the handle, both front and back. The silver ferrule is where the hallmark can be found for Sheffield 1927 together with the makers initials M & W for the well renowned Mappin & Webb. The nickel framed magnifier itself is of course new (by Hilkinson), so clean, clear and ready for use with good magnification.
