Description

Antique Oak Pot Board Dresser Base Antique Oak Pot Board Dresser Base, Late 18th Century This handsome antique oak pot board dresser base, dating to circa 1780, is a fine example of late 18th-century English country furniture. Crafted from solid oak and displaying a rich, time-softened patina, the piece combines elegant Georgian proportions with practical storage. The dresser base is fitted with 5 drawers across the frieze, each retaining attractive brass swan-neck handles and shaped backplates. Beneath the drawers runs a beautifully shaped apron, adding a subtle decorative flourish typical of the period. The base stands on turned legs, united by a full-length pot board shelf, traditionally used for storing cookware and household items. With its generous surface area and useful lower shelf, this piece works equally well as an antique oak sideboard, kitchen dresser base, or console table, bringing warmth and authenticity to both traditional and modern interiors.
