Description

Huge Art Deco Ceiling Light From an Early Passenger Liner A wonderful piece, heavy hand cut crystal and brass ceiling light from an early 20th century Passenger Liner, I am told that the light came from RMS Mauritania after the second World War, I have not been able to find any proof of this but it certainly could be. This is an extremely heavy piece, it has been rewired and is working, it is in handsome condition and would work very well in a large space. The light is overall 21" in diameter and about 12" in height DG164

Internal Ref: DG164
