Gents 1950s regulator wrist watch

Price

GBP 535

| USD \$723 | EUR 626

Item Reference: SA1197449

Date of manufacture: 1950

Description

UK POSTAGE ONLY FOR THIS ITEM Gents 1950s regulator wrist watch. The watch has a Swiss 15 jewel calibre FHF 200 hand-winding movement which is working nicely. The movement is held in place by the retaining ring, hence the two retaining screw holes within the movement are empty. The watch measures 35mm diameter excluding the winding crown and the lugs. The case is chromium plated. It has general light marking but nothing too serious at all. Stainless steel case back. The lens has a small mark at the top although you have to look closely to see it. Other than that, it is in good condition. The dial is in good original condition with original blued steel hands to the subsidiary dials and original red seconds hand. The dial has been left blank so that the original watch company could add their details... signed examples of this watch can be found from Girard Perregaux, Ernest Borel and Cyma. A new leather strap has been fitted. The watch comes in a new presentation box.
