## Description

A fine and genuine Georgian flame mahogany bow front chest of drawers. The drawer fronts are beautifully figured in richly patinated flame mahogany, arranged in striking symmetrical cathedral patterns. The bow fronted form is elegant and confident. Fluted quarter columns frame the façade, adding architectural detail and proportion. The chest retains decorative lion mask ring handles and key escutcheons. Constructed in solid mahogany with oak-lined drawers and traditional hand-cut dovetail joints, this is a proper Georgian piece. The colour and depth of patina are exactly what collectors look for. A highly usable period chest with real presence.
