Description

A fabulous Japanese calligraphy writing table crafted from Keyaki, the highly prized Japanese elm known for its striking grain and exceptional durability. The piece is in excellent antique condition and retains a wonderful depth of colour and patina. The table features three smooth-running drawers, each fitted with its original metal handle. As with all genuine working pieces, there are small age-related imperfections, but it remains a solid, beautifully made table with superb graining throughout. One drawer carries historic ink staining, a charming and authentic reminder of its original calligraphic use. This is a characterful and functional piece with strong decorative appeal. In a modern interior it works perfectly as a low table, display stand, or accent piece in a living room or study. Whatever the setting, it stands as a true collector's item for anyone who appreciates Japanese craftsmanship and traditional woodworking.
