Height = 20 cm (7.9")

Description

Description A magnificent pair of 18th century air twist wine glass goblets dating to c1745. They have large drawn Bell bowls above multi spiral air twist stems, the twists starting in the solid sections at the base of the bowls. Large conical feet. A stunning well balanced pair in original condition. We have pictured them next to a standard air twist wine glass from the same era to give you some idea of their proportions. They fit your hand like a glove and will provide a modern sized glass of wine...you just have to fill them. Rare to find a pair of air twist goblets from this era and although we've had some stunning goblet examples, never a pair. Date & Origin England, c1745, Period of King George II. Condition Excellent. No chips, cracks, or restoration. Wear as expected with a few small air bubbles and tool marks. Dimensions Height: 20 cm (8 inches). Rim diameter: 9 cm. Foot Square: 9 cm.
