Gents 1950s Omega Seamaster automatic wrist watch

Price

Sold**Item Reference: SA1199654****Date of manufacture: 1950**

Description

Gents 1950s Omega Seamaster automatic wrist watch. The watch has a 20-jewel automatic movement, calibre 501, which is working nicely. The movement is signed with the Omega name, logo and calibre number. It has the serial number R93260 on the barrel bridge... this indicates that the watch has been back to Omega at some stage and they have replaced the original barrel bridge hence the replacement serial number. The watch measures 34mm diameter excluding the Omega winding crown and the lugs. The case is stainless steel and it is in good condition. The inside of the case back has the Omega logo, together with the case reference 5710. The Omega lens has the tiny clear Omega lens to the centre. The signed dial has cross hair detail, original dauphine hands and centre seconds hand. Some even freckling across the dial. A new leather strap has been fitted. The watch comes in a new presentation box.
