Depth = 18 cm (7.1")

Description

Hi I have for sale a 1870s Austrian/German Vienna regulator wall clock made by the best Lenzirsch, which has a single weight-driven movement all original and complete, this is a very good clock in stunning condition, keeping perfect time over eight days with matching movement /bracket no extra holes. The movement has been fully ultrasonically cleaned, polished and re-built oiled, and tested and is in perfect running order with a new gut line. The Case The case is in solid walnut/ebony, she stands 130cm high x 40cm wide with a depth of 18cm it is in very good original condition and has been well waxed over and over the years looks almost wet to the eye, it is a very nice clock in great original condition, the width given is for the widest part the clock overall is very slim and elegant. The Dial The one-piece dial is in original condition in a white set off with lovely hands and Roman numerals, and a brass bezel all covered by thick glass one piece door. The pendulum is very heavy as is the original small weight. The Movement The movement is an eight-day time only. The movement was cleaned hand polished new line was added, it was serviced about 6 months ago, and keeps great...

Internal Ref: Lenzirsch Wall clock
