Depth = 3 cm (1.2")

Description

Hi I have for sale a 1900s French solid silver miniature carriage clock made in France in the original case, which was fully restored both movement/platform and case in January 2026 . The Case The case is in solid hallmarked silver and stands 8cm x 4cm wide with a depth of 3cm it is in very good condition with mint convex glass front. The Dial The dial is in good original condition in white porcelain with a retailers name matching the box , finished off with ornate black hands. The Movement The movement is an eight day time only; the movement has been cleaned serviced and oiled so keeping great time over the eight days via the original cleaned/serviced silver platform escapement to the top. Original key included and the original travel case. Overall a very beautiful top quality carriage clock by a quality French maker that looks stunning on display and contains all of its original features this is quite a rare find these days. I had trouble with the photos because of its size and deep shine it is much better in the flesh. I will post worldwide.

Internal Ref: Silver Miniature
