Depth = 7 cm (2.8")

Description

Hi I have for sale a 1900 French Delft enamel masked dial carriage clock made in France which has been fully restored both movement and case in December 2025. This is a genuine French carriage clock not a modern reproduction. The Case The case is in solid brass and stands 15cm high x 8cm wide with a depth of 7cm it is in mint perfect condition with mint thick bevelled glass front and top viewing glass. The Dial The dial is in untouched original condition with Arabic numerals and the original ornate spade hands housed in a beautiful blue delft and brass stringing, simply stunning. The Movement The movement is an eight day time only, the movement has been ultrasonically cleaned, hand-polished, serviced and oiled so keeping great time over the eight days. I have the original key also. Overall, a very rare beautiful quality carriage clock by a quality French maker that looks stunning on display and contains all of its original features this is quite a rare find these days.

Internal Ref: Delft CC
