Description

Regency Satinwood Bow Front Chest of Drawers Item Code S27-1055 An elegant Regency period satinwood bow front chest of drawers dating from the early 19th century, constructed in beautifully figured satinwood with a warm golden colour and attractive grain throughout. The gentle bow front gives the piece refined Regency proportions while allowing the natural figure of the satinwood veneers to remain the focal point. The chest is arranged with four long graduated drawers, each outlined with delicate ebony line inlay and fitted with circular brass handles. The curved drawer fronts provide a pleasing sense of movement and balance across the piece, typical of Regency furniture design. The clean top sits above simple uprights with subtle inlaid detailing which frames the drawers neatly. The chest stands on elegant tapered legs, giving it a light and well-proportioned stance while maintaining practical storage. A highly decorative yet functional Regency chest, ideal for use in a bedroom, hallway or living space, offering generous storage combined with classic early 19th century design. Key Features • Regency period satinwood bow front chest of drawers • Four long graduated drawer...
