Description

A stunning, fine and impressive antique 2.37 carat diamond, 18 carat yellow gold and platinum set linear cluster ring; part of our diamond jewellery collection. This stunning, fine and impressive antique diamond cluster ring has been crafted in 18ct yellow gold with a platinum setting. The pierced decorated mount displays a central pavé set 0.59ct Old European round cut diamond flanked on either side in a linear formation by a slightly smaller Old European cut diamond. The feature diamonds are surrounded by a paralleling scalloped border embellished with twelve pavé set Old European round cut diamonds, incorporating ten Dutch diamonds, completing the desirable linear cluster design. The elevated, pierced decorated ring shoulders blend seamlessly with the plain yellow gold ring shank. This impressive gold diamond cluster ring is hallmarked to the interior of the shank with the maker's mark (R.W.J), the 18ct gold mark (18CT) and the platinum mark (PLAT). This stunning gold and diamond ring is supplied with an IDGL diamond grading report certificate for the feature stone, in addition to an IDGL diamond grading report card for the supporting stones. This antique linear...
