Description

'NOS' 1940s Hallwatch wrist watch by Liban. The watch has a Swiss 15-jewel hand-winding movement, signed Liban, which is working nicely. In 1932, Sigmund Liebmann founded the Fabrique des montres Liban. Five years later, he went on to also register the names Liba and Libana but most of his watches were sold under the Liban and Libana names. The watch measures 22mm wide excluding the winding crown, and 30mm high excluding the lugs so it would suit a lady or a man with a slimmer wrist. The case is stainless steel and it is in stunning condition. The inside of the case back is signed Liban and the outside is stamped Fond Acier Inoxydable (stainless steel). The lens is in beautiful condition (some natural light reflection showing in the main photos). The dial is signed HallWatch which we believe to be a brand name. It is in its original copper coloured two tone finish with original hands, all in really super condition. The watch comes with its original strap. The watch comes in a new presentation box.
