Description

1940s 'NOS' Vidar Lever wrist watch. The watch has a Swiss 15-jewel (2 adjustments) hand-winding movement which is working nicely. The watch measures 23.5mm wide excluding the winding crown, and 31mm high excluding the lugs. The case is chromium plated while the case back is stainless steel, and it is all in beautiful condition, as is the lens. The dial is signed Vidar Lever and it is in its original finish with original hands, a subsidiary seconds dial and outer minute track. Vidar was a brand name registered by L Tièche-Gammeter in 1909. In 1916, the brand was purchased by Meyer & Stüdeli (MST) the company that later became known as Roamer. The watch has its original leather strap, together with original price label. The watch comes in a new presentation box.
