| USD \$263 | EUR 228

Item Reference: SA1201071

Date of manufacture: 1900

Description

Antique Douard goliath pocket watch. The watch has a stem-winding movement which carries the brevet, or patent, number 7032. This relates to an 1893 patent for a new watch calibre, with the inventor and applicant listed as Amedee Douard. The movement is working nicely and it is all protected by an inner hinged cover. The watch measures 70mm diameter excluding the winding stem and the loop. The case is nickel with a rose gold edging to the inner edge of the bevel. The thick glass lens is in good condition, just a few small marks, and a 4mm chip underneath the lens at the bottom. The dial has its original pin-set blued steel hands, a subsidiary seconds dial and outer minute markers. There is a faint hairline between 9 and 12. The watch comes in a new presentation box.
