Description

Antique silver Doxa pocket watch, 1911. The watch has a stem-winding movement, signed with the Doxa name, which is working nicely. The movement is protected by an inner cover which has a little unevenness and surface marking. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for London (import mark) 1911. The front and sides of the case are in good condition, the back has some unevenness. The back of the watch has been engraved with the name Hal. The acrylic lens is in lovely condition. The dial is in good condition, a small faint hairline towards the edge which is mostly covered by the bezel. The watch comes in a new presentation box.
