Description

Description A finely engraved mid-19th-century engraved serving plate dating to c1850. It has been engraved around the rim with a fruiting vine and then in the central depression on the underside, we have engraved pomegranates surrounding a large central strawberry (which when turned also looks like a pineapple). Polished ponil. The engravings would suggest that the plate was used for serving exotic fruits in the centre of the table. A very unusual example and rare in the respect that we have never seen one before. Date & Origin England, c1850. Period of Queen Victoria. Condition Excellent. No chips, cracks, or restoration. Dimensions Height: 2.5cm. Diameter: 18.5 cm.
