Description

A charming and solid pair of vintage wooden bookends, cleverly crafted in the form of "faux books." These pieces feature a minimalist, architectural design characteristic of the Arts & Crafts movements. This "book-shaped" design was a popular "Victorian wittiness" used to prop up real books. Although not marked with a signature or a stamp of the maker, this does set share design similarities with early 20th-century English walnut bookends by Gordon Russell Limited. Books not included. Dimensions indicated are for each bookend
