Description

Silver Thomas Russell pocket watch, 1937. The watch has a 17-jewel stem-winding movement which is working nicely. This is a good quality movement with swan neck regulator, screw set jewels and adjusted in three positions. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the case back for Birmingham 1937 with a case maker's mark for Aaron Dennison. The case has crisp engine turned detail to the back with a vacant cartouche to the centre. It is all in lovely condition. The glass lens is in good condition... if you look very closely, there is some residue from the original label. The signed dial is in beautiful condition. The watch comes in a new presentation box.
