Description

This table is in good condition. It is totally original to Hungary. The top is a massive 8cm thick and very heavy. It is in beautiful condition even though there has been a splice to the one corner. This table / bench would look well in an old or modern property particularly in a georgian / victorian property in a living room as a coffee table. This would look great with a large flat screen TV placed on top. This is very stylish and would look fantastic even in a reception of a hotel. This table stands on square tapered legs supporting the main section. The main section is one large block. This block is 13.5 inches thick which is the thickest I have seen and has remarkable character and markings that only years of use could demonstrate. The height is 51cm, the width is 110cm and the depth is 47cm.
