Description

This chest of drawers has been professionally stripped, restored and painted in a lovely blue paint. The edges have then been rubbed over giving it a stunning appearance. This chest of drawers would look well in a large property bedroom amongst similar painted antique pine furniture. This would look fabulous in a downstairs room with decorative items placed on top. It is very heavy and huge so I will require a hand off the van with it. These Hungarian chests are very large so please be aware your staircase needs to be wide enough to get it upstairs and to be able to maneuver it on the landing. If you are looking to furnish a bedroom please view our other items we have many wardrobes and bedside cabinets. This chest stands on square back legs and round turned front bun feet supporting the main section. There are four large drawers. The top drawer has a beautiful moulding. The drawers have their original georgian metal drop handles and a metal key plate which is a nice feature. There are columns and fluted corbels to the top. The top has a slight bull nosed edge. The height is 124cm, the width is 131cm and the depth is 69cm.
