Gents Omega wrist watch,
1943

Price

Sold

Item Reference: SA1205828

Date of manufacture: 1940

Description

Gents Omega wrist watch, 1943. The watch has a 16-jewel calibre 30T2 SC hand-winding movement which is working nicely. The movement is fully signed and it has the serial number 9,825,709 which dates it back to 1943. The watch measures 33mm diameter excluding the later winding crown and the lugs. The case is stainless steel and it is in good condition with just minor marking. The inside of the case back has the Omega triangular stamp together with the case reference 2391/7 which is correct for the 30T2 movement. The lens is in lovely condition. The signed dial is in lovely condition... it may have been refinished at some point, but a long time ago. Feuille shaped hands. A new leather strap has been fitted. The watch comes in a new presentation box.
